

The 2008 Local Consultation meetings are intended to develop and refine the regional and statewide transportation needs and priorities in Kansas. Specific projects will not be selected for funding through the local consultation or the T-LINK task force process.

The following bicycle and pedestrian projects outline a few of the needs that KDOT is aware of and should serve as a starting point for discussion. Specifically, these projects were submitted through KDOT as a part of the Transportation Enhancement and Safe Routes to School programs, but were not approved for funding. This list is intended merely as a beginning point for discussion purposes, and it is expected that many other needs will arise as a part of the Local Consult process.

Transportation Enhancement Program

FY Year	Sponsor	Project Descripton	Length	Projected Cost
